DESCRIPTION

- Over-ear wireless headphones with a foldable design, created to deliver an immersive sound experience and total comfort during long listening sessions. Made with 60% recycled plastic, they combine high performance with a commitment to the environment, offering a responsible choice without compromising on quality.
- They feature powerful 40 mm dynamic drivers that provide balanced audio with excellent bass and treble response.
- Their 600 mAh battery delivers an impressive autonomy of over 80 hours of continuous playback. They fully recharge in just 2.5 hours via USB-C, ensuring convenience and efficiency for everyday use.
- The over-ear design completely surrounds the ears, providing improved passive noise isolation and reducing listening fatigue. This significantly enhances the immersive experience, whether listening to music, making calls, or enjoying multimedia content.
- They include a built-in microphone for hands-free calls and direct access to voice assistants such as Siri or Google Assistant. In addition, they support multipoint connectivity, allowing two devices to be paired simultaneously, and feature on-ear controls to manage volume, playback, and calls without needing to use your phone.
- Their foldable structure makes storage and transport easy, making them an excellent option to carry in a backpack or bag and use anytime, anywhere.

MAIN CHARACTERISTICS
