DESCRIPTION

- Wireless soundbar for PC, TV, smartphone, or tablet compatible with Bluetooth technology with a 20W output power.
- This multimedia speaker delivers crisp and balanced stereo sound as well as clear acoustics for an immersive experience.
- Wireless sound, thanks to its Bluetooth connectivity, compatible with any Bluetooth-equipped device.
- Designed to save space on your desk, it fits perfectly under your monitor, freeing up desktop space for other items or accessories.
- USB-powered, it does not require a power outlet. You can connect it to any USB power source, such as a PC or laptop USB port.
- Audio input with a 3.5mm jack cable.
- Integrated volume control for easy handling.
- Features an elegant design, made with high-quality materials that ensure durable use and protection against wear.
- Equipped with a microphone input.
- Includes a headphone output, allowing you to enjoy music in complete privacy.
- Compact and elegant design that fits perfectly on either side of the computer without taking up extra desk space.
- "Plug and Play" installation.
